

A Message From a Fellow Parishioner

About Pi Network & our church accepting digital donations

Dear Father / Pastor / Church Administrator,

My name is _____ and I am a member of this parish. I have been part of a global digital currency network called **Pi Network** and I believe our church has an exciting opportunity to be among the first ministries in Canada — and possibly the world — to accept Pi as a form of tithe and donation.

I am not asking for anything financial from the church. This is completely free to set up and carries no risk. I simply need about 15 minutes of your time and help setting up a Pi wallet so our congregation can begin giving digitally.

What is Pi Network?

Pi Network is a digital currency project with over **60 million members worldwide**, including a significant number of Christians in countries like the Philippines, Nigeria, South Korea, and Canada. Members earn Pi by simply pressing a button once a day on their phone — no expensive equipment needed.

Pi launched its open mainnet in early 2025 and is now a real, tradeable currency. Many Pioneers (as members are called) have been holding Pi for years and are now looking for meaningful ways to use it. Giving to their church is one of the most natural uses they can imagine.

Why should our church consider this?

It costs nothing. There are no fees to accept Pi. Setting up a wallet takes 15 minutes and is entirely free.

It's completely safe. Donations go directly from the donor's wallet to the church's wallet. No third party holds the funds.

It reaches new givers. Some Pi holders want to give but may not carry cash or use debit. This gives them a way.

The value may grow. Churches that hold Pi may benefit as the currency appreciates — like an early investment in goodwill.

You can convert to cash. Pi can be exchanged through Pi Network's own exchange if the church prefers traditional currency.

What I am asking for

1 15 minutes of your time

To walk through setting up a Pi wallet on the church's phone or device.

2 List us on tithe.pi

I will register our church on a free directory called tithe.pi so Pi donors worldwide can find us.

3 A brief mention

If you are comfortable, a short mention in the bulletin or after Mass so parishioners know we accept Pi.

Thank you for your time and your openness to this idea.
